Pan-Massachusetts Challenge

Biking for Your Health

By Adam Silva

Tri-Town kids biked around the ORR / ORRJHS loop as fast as their legs would take them on the morning of Saturday, May 17, and it was all for a good cause.

The Pan-Massachusetts Challenge (PMC) Kids Rides Program works with local areas to organize bike-a-thons to raise money for cancer research and treatment at Dana-Farber Cancer Institute through its Jimmy Fund. According to the PMC website, "The program engages youth in philanthropy, instills the value of working for the benefit of others, and promotes athletic fitness and physical activity." This is the third year that the Tri-Town has been involved with the PMC.

The ride began at 10:00 am with "Gonna Fly Now" from *Rocky* blaring from the DJ booth. The ages of the riders ranged from three to twelve. For the riders still on tricycles, an obstacle course was set up in the junior high staff parking lot. All riders were required to wear helmets.

"Kathy Gauvin's six-year-old son had cancer, and the two of us started looking for ways to raise money for cancer research," said co-organizer Kathy Olden. "Thankfully, her son is now in remission. For the past two years, we've been able to raise about $10,000 each year. We only ask for a $10 registration fee for each rider, but they can raise money if they want. We encourage it of course. They get a t-shirt, a water bottle, lunch and they can get their face painted. We are raffling off a Nintendo Wii and a Garmin GPS as well."

The event was sponsored by Stop and Shop, who provided the lunches for the riders. PMC has 32 different rides scheduled across Massachusetts, Rhode Island, New Hampshire and Maryland.

"Last year, we had around 170 riders and we're hoping for close to 200 this year," said Ms. Olden. "Since we're on a Saturday, we're competing against baseball games and a lot of other stuff. Next year, we might try to have it on a Sunday. Fun 107 has been nice enough to DJ for us."

For more information about the PMC Kids Rides Program, go to their website at kids.pmc.org.

Proceeds from the event will go to several charities in the state such as the Jimmy Fund and Dana- Farber Cancer Institute to assist in cancer research. The rally was expected to raise more than $15,000. Photos by Robert Chiarito. Additional photos available in our photo gallery at: www.wanderer.com*

found sharing his knowledge as a fitness and wellness trainer. To ask Derek a question about training is to open up a world of possibilities which all lead towards one coming closer to realizing the goal of unleashing the inner buff self we each possess. For people of all ages who don't believe that you can be as fit as a healthy twenty five year old, Mr. DeCosta has a message for you Tri-Towns; he believes in you and is willing to give you the tools to help you get there. He is also willing to do all of this for free.

During his seventeen plus years of working in the field of health and wellness, Mr. DeCosta has seen a lot of what does work and a lot of what does not. He has worked in gyms owned by others and he has owned facilities of his own. He has worked with large groups of people and he has worked one on one with clients. "Over the years I have come to know a lot about this industry from wearing many hats in it. All too often the gym setting does not work for people. They sign up and get all of this attention in the beginning and then all of a sudden there is no one there to help," Mr. DeCosta said, looking back at some of his personal experiences. "The people joining the gym have good intentions when they join the gym, but without instruction and variety in the workouts, going to the gym becomes stagnant. I call this the hamster wheel effect. People see initial improvement, they reach a plateau and then they stagnate and stay in the same place, just spinning their wheels like a hamster. Pretty soon they become discouraged and quit going to the gym at all. I

believe that to succeed in fitness you need a total body approach that includes diet, exercise and stretching, along with good sleep patterns to give the body time to rest and recover. I also don't believe that you need a lot of fancy equipment to reach your goals. Your goals can be reached by using everyday items found around the house and very simple and inexpensive exercise equipment."

Mr. DeCosta likes to keep things simple. If you need a place to stretch, use a doorway or a chair. If you need resistance to help build muscle you can use the weight of your own body against itself or you can use inexpensive resistance bands. Spreading this message to the Tri-Towns has become something of a crusade for MR. DeCosta something he feels is almost an obligation, to

give back to his community. He often volunteers his time to speak at high schools, youth groups, and senior centers, and has been known to drop everything he is doing to give impromptu wellness lessons to those who ask questions. Still, even that does not quench Mr. DeCosta's need to help those around him.

Derek, being the Renaissance man that he is, is also a philanthropist. "I wanted to find a way to give back to the community," he said recently. "I feel that I can help this entire community become healthy and it is my goal to teach my system to as many people as possible so that it becomes a way a life that is being passed on from one person to another long after I leave here." To that end Mr. DeCosta has undertaken a series of projects designed at giving his theories on wellness to the public. Why would he do that, you ask? Again, his answer is simple, "My philosophy is simple. I wanted to give back to the community the best way I knew how to do,so I decided to share my knowledge in the hope that people would take that knowledge and live better lives, eating better foods and exercising and stretching to help maintain their weight and keep themselves fit. If I truly want to achieve this goal I can't ask everyone to buy it. I have to make it available for free. If this works maybe it will spread to neighboring communities and then throughout the state and then the North East and maybe throughout the country. If this country is going to control healthcare costs it needs to start looking at how we treat our bodies through the food

we eat and the amount of exercise we do."

"When I tell people that I want to do this and do it for free, they look at me like I am crazy. But, for me it is like a tithe. It is my way to give back to my community in the best way I know how. The world has got to change how we view and treat one another and this is my contribution to that."

Several months ago Mr. DeCosta became a member of Old Rochester Community Television for the express purpose of creating a wellness program that the people of the Tri-Towns could participate in simply by tuning in each week. The program encourages people to avoid the pitfalls of commercial gyms by literally becoming their own gym. "The show is me giving the viewers my philosophies in a way that is easy to follow, and it is free of charge. There are seven parts, and they run in order covering stretching, diet, exercise, etc. so that, if they miss one, they can just tune in the next time and pick up at that point and follow along." Each show is as much a discussion as it is instruction, designed to break down complicated ideas into easy to understand concepts. Each episode is followed by an instructional video demonstrating many of the techniques discussed during the broadcast. The show airs on Monday, Wednesday and Friday at 6:00 PM.

Mr. DeCosta decided that this was still not enough. For those of you who would like to hear his theories first hand Mr. DeCosta will be giving a free seminar, based on his cable access television program, at the Knights of Columbus Hall from 7:15 PM until 8:30 PM on Thursday, May 28. For Derek DeCosta this is his gift to the community. If the program catches on and spreads the way he has envisioned, this may one day become his gift to the World.

Rochester Artist in NYC Show

For Rochester artist Katherine Hanson, working in her studio often means driving to New York City where she also lives. A life that one day has her painting on her dock on Snipatuit Pond and another day painting in her Greenwich Village studio is the best of both worlds to this pastel artist of colorful contemporary botanical paintings.

Her large-scale paintings of flowers and other botanical wonders are included in a show this month called "12 Over 50^2" that celebrates artists over 50 who have lived and worked in New York City. Sponsored by The Caring Community, the show runs from May 14 to 29 at their building at 20 Washington Square North. This former elementary school is one of the few remaining townhouses that face Washington Square, site of thousands of art and music events since the 1960s.

"I love to capture the beauty and color of things we often overlook, whether it is because we're too busy rushing down the street or because we just don't take the

time to see," she says, explaining her paintings which have been described as giving little things—flowers, leaves, fruit, copper pots, or even marbles—a momentous quality. "It's fun to take things out of their ordinary setting and really look at them up close. The layers of color, the play of light, the abstract designs you don't usually see are all there; you begin to see the underlying design of nature in everything. I try to capture the meditation on the comforting peacefulness of this underlying design and celebrate the joy it brings—whether it's in the flowers growing in my garden in Rochester, the plants on the corner of the street in the Village, or the sea grapes in the Caribbean."

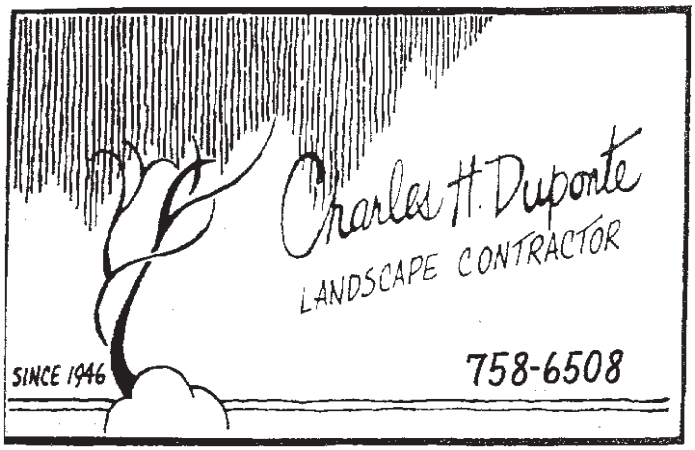

When in Rochester, she and her husband live at the end of a private almost 2 mile-long dirt road that befuddles delivery trucks and visitors. "It seems like you're driving into nowhere when you go down the road," she said, "but there we are, tucked into a cove on Snipatuit Pond, with the blue herons, the otters, and of course the geese, which make it noisier at night than living on Bleeker Street."

New York is a different picture, although she claims that Greenwich Village is quiet and "you can cross the street almost without having to look at traffic." "I get to have the best museums and galleries in the world as my playground; I get to meet the most interesting people — it all energizes my work and my life," she says.

She has shown her work in New York and locally

Insect Bites

My dog came inside from his run with a number of 1/2 inch red marks on his belly that were shaped like bullseyes. Are these from deer tick bites? Does it mean that he will get Lyme Disease?

Because of the mild winter, this spring has been especially bad for black flies and biting gnats. These are the small flies that circle your head in the morning and evening. When they bite a dog, usually on the belly and ears where the hair is thin, they leave a characteristic bullseye shaped mark.

Is there a way to prevent him from being attacked by these flies?

Try putting Avon Skin So Soft on the areas that have a thin hair cover. Other insect repellents containing DEET may not be safe on your dog. Use them very sparingly, as on the ears only.

uled to begin at 7:00 pm, the meeting was not convened by Town Moderator David B. Titus until 7:17 pm due to the lack of a quorum of at least 50 eligible Town voters. Officials present at the meeting included Jonathan F. Henry, Chairman of the Board of Selectmen, Selectmen Roger F. Blanchette and Stephen M. Cushing, Town Administrator Paul F. Dawson, Town Accountant Judith M. Mooney, Town Clerk Ray E. Pickles, Dr. Richard A. Kemp, Chairman of the Marion Finance Committee, and Finance Committee Members Alan I. Minard, Hamish C. Gravem and James B. Barron.

Article S1, the sole article on the meeting agenda, was moved by Mr. Henry: "To see if the Town will vote to transfer from available funds in the treasury (free cash) the sum of $100,000 to supplement the operating budget of the following Town department for the fiscal year 2009: Department of Public Works, Snow and Ice, $100,000 or take any other action thereon." It was noted that the Finance Committee recommended adoption of the Article.

Mr. Henry commented that he had been asked earlier in the day how the snow and ice removal costs overage had come to be exactly $100,000.00. "The truth," Mr. Henry said, "is that the overage is actually $106,855.62, but the Town is being asked to transfer the nice round figure of $100,000. The $6,855.62 will be absorbed by other funds in the Department budget for last fiscal year."

Mooney noted that the action would leave "$59,366.00 remaining in free cash for Fiscal Year 2009." Mr. Kemp also noted that "all the brush-breaker money will go into free cash." (That amount was $52,000.) Ms. Eunice Manduca of 99 Main Street asked if "this is paying for last year's snow, or anticipating this year's snow?" Mr. Titus responded that the $100,000 "was paying for last year's snow."

Mr. Titus called for a voice vote, and the Article passed unanimously. Mr. Henry moved to adjourn the Special Town Meeting, and the motion was seconded and passed unanimously on a voice vote, and the meeting was adjourned at 7:22 pm.

Ryan by awarding him a certificate for having served on the High School committee for thirty-seven years and as Chairperson for a number of those years.

The Scholarship committee then presented scholarships to two young women recipients.

Next, Fire Chief Scott A. Ashwood, Police Chief Paul H. Magee and Highway Surveyor Jeffrey Eldridge were recognized for their tremendous work in keeping the Town safe.

The Regular Town Meeting then began and Selectman Nunes asked for a number of people to be allowed to speak, which included Town Administrator Richard LaCamera, Town Counsel Blair Bailey, Town Planner Randall Kunz and Superintendent of Schools William Cooper. This motion was passed.

Article 1, the Annual Report of Town Officers and Committees asked the Town to accept their annual report, or take any other action thereon. This article passed unanimously.

Mr. LaCamara then presented the budget, explaining that it had been lowered for 2009. For 2010 and 2011 it will be conservative as well. Mr. LaCamera explained that the Town of Rochester is financially stable at this time. Not all free cash is being used; some is being carried over to fiscal year 2010. The school is receiving funding and the lowest amount of State aid is being used at this point.

Article 2, Elected Officials' salaries, asked the Town to vote to fix the salaries of the elected officials of the

Town for the Fiscal Year 2010.

The Finance committee requested another member; they are in need of a fifth member for their board. They explained that they didn't recommend some of the items-because the night of the votes there weren't enough members present to take a vote. Thanks were given to Mr. LaCamera for all of his assistance.

Article 2 passed with a unanimous vote.

Article 3, Personnel By-Law Amendment-Classification and Compensation Plan, which asked the Town to vote to amend Part IV, passed unanimously.

Article 4, Town of Rochester FY 2010 Operating Budget, asked the Town to vote to raise and appropriate and / or transfer from available funds a sum of money to defray Town charges and expenses for the Fiscal Year ending June 30, 2010.

Line items were read and all which were not in question were approved by a unanimous vote.

The line items in question included number 141, which a Member of the Board of Assessors wished to amend to include overtime for the Assessment Administrator, who has always had overtime in the past. This would mean adding $1800.00 to the overtime account.

Mr. LaCamera commented that all overtime had been eliminated except that which is absolutely necessary.

The amendment lost by majority and the majority voted in favor of original.

The next line item in question was number 241 which concerned the Building Inspector's overtime. Selectman Nunes amended this by striking out the overtime line. Majority voted and number 241 was amended.

Article 5, Natural Resource Expenses, asked the Town to support Environmental and Natural Resources Expenses, and the majority voted in favor.

Article 6, Human Services, asked the Town to

Mr. LaCamera responded that revolving accounts could include fees and grants and reassured that no funds were appropriated from the Town.

played by Ian Vincent as Benedick and Kayla Bessey as Beatrice. Costume and set design have been constructed by members of the class, as well as all other aspects of the production. Theater is an elective that is offered during the spring (or second) semester of the academic year and is open to any student in the Freshman, Sophomore, Junior and Senior grades. The class is known to consist of a very diverse group including both veteran actors and actresses, as well as students who have never been a part of the theater experience before. It serves as an excellent opportunity for students who do not have time or have been too timid to join the Drama Club to get involved in show business. It also gives those who are already very engaged one more chance to perform.

The theater class, unlike the Drama Club, concentrates on Shakespearean plays. This makes for a bit of a challenge considering the difficult language of the plays. Actors in the class must not only deliver their lines, but deliver them with enough mood and feeling for their audience to understand. Because the participants only practice during class, every other school day, the actors have had a very limited amount of time to piece the production together. This lack of time, however, does not stop the students from having a good time with one another. "They are like a family," says Mrs. Brunelle, while describing how well the senior students embrace those of the freshman class. Theater brings students together to work on a common goal. This hard work and dedication will be executed on Thursday night. Donations will be welcomed at the door.

On Friday, May 16th, the Old Rochester Regional High School gymnasium raked in a great crowd, who were there to witness the high school's first student-faculty basketball game. The event was put on to benefit the junior class and was run with announcers, senior Chris Wright, and faculty member, Paul Sardinha calling out plays on the microphone. The laid back atmosphere made for a very entertaining and fun night.

During half time, the Junior class put on a fundraiser where, for the price of a dollar, participants would have the chance to shoot a basketball from half court. Whoever got it in would receive a $25 cash prize. The game brought in many contestants but quickly boiled down to only two, Ben Church and Nick Wright. Both boys were the only ones to sink their shots on the first try, bringing them into a final round. They then went on to sinking and missing and remaining even. Finally, Nick Wright took the first place prize.

As for the basketball game itself, the student team

creamed the faculty. In fact, the final score was about a thirty or forty point difference. Despite this, all participants (both student and faculty) demonstrated their good sportsmanship and proved that they were only playing for enjoyment.

As the class of 2009 departs, many of the students are found reflecting upon their past high school years. In the upcoming issue of the school's newspaper, *Paw Prints*, senior members of the journal will be lending their advice to those underclassmen.

Wanderer Keel Awards

The Wanderer is once again pleased to announce we are now soliciting nominations for our sixteenth annual "Wanderer Keel Awards." The yearly community service honor — which is presented to one resident from each of the three central towns in our circulation area — will be announced in our **May 28, 2009** issue and each winner will be the subject of a short feature highlighting their contributions to the local community. But *The Wanderer* needs your help in selecting these "unsung heroes."

The requirements are simple. Nominees must be legal residents of Mattapoisett, Marion, or Rochester (at least five years), and must have contributed in some way to the overall benefit of the community — either directly to town residents, or indirectly through efforts in promoting town activities, or working to keep the wheels of local government well-oiled. The only restriction is that these

persons cannot benefit from their efforts in any other way — either financially or politically (hence, sitting elected officials are *not* eligible).

In doing this, we hope to applaud those who are rarely recognized for their countless hours of service and focus on the many people "behind the scenes" who remain otherwise anonymous but provide crucial support to many town functions. Like the keel of a ship, which keeps the vessel from capsizing, the recipients of the Annual Wanderer Keel Award will be recognized for their stalwart efforts in keeping the community on an "even keel."

Letters to the Editor

To the Editor:

Do you remember those old Marion bumper stickers that said, " Marion is Nicer"? Well, in one aspect Marion is not any nicer - the garbage along the roads in town is just as much and dirty and disgusting as any other town.

Last Saturday, 150 hardy volunteers, young, old and in between, showed up at the Marion Music Hall to grab their bags and gloves and get their road assignments. A very large mound of trash was collected and piled up in front of the Music Hall for all to see; tires, old cushions, a car battery, wires, rubber tubing to name a few. You name it we collected it. On my route, Dunkin Donuts coffee cups won in that category and we don't even have

one in town - yet! Then came the bottles of every shape size and brand, plastic bags, lottery tickets, cigarette buts, Smirnoff nips. The amount of liquor and beer bottles was amazing and we even found some hypodermic needles- that was scary.

The work was dirty and backbreaking but very rewarding. We hope that next year we will have even more volunteers to lighten the load and clean up the town. Hearty thanks go to Tinker Saltonstall and family for all her organization and committee members Christina Bascom, Trudy Kingery, Joyce West, Susannah Davis, Tim Crowley and Eunice Manduca.

Tabor Academy sent many volunteers, the Boy Scouts helped and there were many young families who showed up. Lockheed Martin provided the bags and gloves. The DPW helped to pick up bags around town and hang our banner that Sperry Sails made for us. Uncle Jon's and Harriet's provided refreshments. The Sippican Lands Trust and the Marion Tree Committee donated our very bright green vests. Eden's Landscapes gives us a tree to plant every year in honor of Arbor Day and this year we will plant a stewartia at Town Hall.

Special thanks go to our sponsoring organizations: The Marion Garden Discussion Group, the Sippican Historical Society, the Sippican Lands Trust, and the Marion Natural History Museum. All donations for the Arbor Day / Spring Clean-up go towards park maintenance in the town. Please plan to join us next year and help to

To the Editor:

Having just participated in the Spring Annual Town Meeting, I feel compelled to write and express my dismay at the behavior of a number of our town's residents. I refer to all those people who got up and walked out of the Town Meeting last Monday evening after the action on the Sewer Extension item.

Being a resident of this town carries with it obligations to help further those things that "make Mattapoisett special" and one of those is to participate fully in Town

Meetings. The disservice displayed by your leaving, following your particular warrant item, is a disservice to the whole town as well as those of us who stayed and also attended the conclusion of the Town's business the following night.

It was also disrespectful to all those people on stage who spend untold hours of time preparing for these important town functions.

Next Town Meeting – please think about your obligations to the entire town and its future – not just your little corner of the world.

Bette Roberts
Mattapoisett

To the Editor:

The Town Meeting issue of extending Town Sewer to some or all of Mattapoisett Neck certainly showcased the heat and passion from all sides of the issue. Many residents felt it was a Mattapoisett Neck issue and remained quiet, feeling they had "no dog in that fight." Being vocal on the issue is not likely to win any friends. Yet there are greater issues.

A sewer line on Mattapoisett Neck is not just a sewage issue but it is a public health issue, a clean drinking water issue and an environmental issue. These should be rights of all citizens, not optional. This is an issue for all residents, those who have wells and septic, those on town water and sewer and not just Mattapoisett Neck residents.

Some residents have spent considerable amounts of money to install state-mandated or approved Title V septic systems, but as long as shallow wells are used, the quality of drinking water, (both yours and your neighbors) is unknown and at risk. Sewage isn't the only thing going down the drain. Chemicals, pharmaceuticals and hormones all end up in the septic tank. Whether you dispose of pharmaceuticals down the drain or whether you ingest and excrete pharmaceuticals and no matter whether the septic system is new or old, working or not, all those chemicals end up in the fresh water supply and in the salt water of our bay and estuary.

the hazards of low level hormones found in the Cape's ponds and wells. See wgbh.org/cainan/article?item_id=4291255. There are contaminants in detergents that have mild estrogenic effects. Many pharmaceutical compounds are designed to be biologically potent at low doses. Even harder to determine are the effect of mixtures of compounds, pharmaceuticals, anti-biotics, blood pressure medications, chemotherapy nuclear chemicals, even natural hormones like esterone and progesterone, and how that low dose cocktail may effect your individual body chemistry. Routine water testing does NOT generally show these compounds.

We've all heard of the "plume" of pollution contaminating Cape Cod's water, so it may be in Mattapoisett that although your septic system is fine, you may be drinking the "plume" from failed septic systems in your area or even just chemicals that pass through a working septic system. Pregnant women and young children are particularly developmentally at risk. Another source of information on hormonally responsive cancers is silentspring.org/our-research/water-research.

Look around town at some of our neighbors who are a little weird or too tall, too short or too fat. Ever wonder why? Ever wonder about the high rates of kids with ADD or of cancers? And all this is not even getting into the subject of chemical effects on the bay, the eel grass, the shell fish etc.

Residents who have well water should install char-

coal filters and have their water tested quarterly. Even so, they should be aware that the test does not show pharmaceutical hazards in the drinking water.

Public health, the safety of our drinking water, and the cleanliness of our bay should be public policy. It should not be optional. While a public sewer and water system are not the only way to achieve these goals, all residents who operate private septic systems and private wells should be held to a standard of health and safety equal to the Town and State standards. The Board of Health should be testing septic system and well water and enforcing regulations, for the health of all residents (including those who do not vote – children and summer residents).

Movie Review

I Confess

By Rob Gonsalves
www.robsmovievault.com

***Angels & Demons.* Starring Tom Hanks and Ewan McGregor. Directed by Ron Howard. Running time: 140 minutes. MPAA rating: PG-13.**

It must be terrific fun to be a symbologist. When you're not writing dry books only three people ever read, you're skipping around the globe on someone else's dime, racing to solve mysteries, hanging out with fetching European women, and making everyone around you look like slack-jawed yokels as you decode things based on arcane pictographs only you and your three readers have even heard of. Of course, people are always trying to kill you, and if I were you I wouldn't go into an airtight archive where the oxygen is controlled by electricity unless I were damn sure they're not going to be cutting the power randomly all over the city.

In *Angels & Demons,* Tom Hanks' Robert Langdon does all of this and more. Hanks has a better haircut than he did in his previous Langdon opus *The Da Vinci Code,* and he has more to do — in cinematic terms, anyway. The whole plot unfolds over the course of one hectic evening; four cardinals have been snatched from the Vatican and hidden all over Vatican City, and one of them will be killed each hour until midnight, at which time an anti-matter bomb will go kaboom and take out Vatican City "and some of Rome as well." Whew! Hanks is in good shape this time out, and he sure needs to be. Langdon is a good swimmer with good breath control, the latter of which will help him not once but twice.

Like *The Da Vinci Code,* which in Dan Brown's bibliography came second but in film chronology comes first, *Angels & Demons* is a lot of religioso hugger-mugger involving vast conspiracies, powerful old men left to die laborious deaths, and a skulking assassin (Nikolaj Lie Kaas) who kills pretty much everyone he looks at. We're to understand that the Catholic Church is under siege by members of the Illuminati as revenge for what the Church did to them centuries ago. The kidnapped cardinals and the anti-matter bomb come into the picture just as the Pope has given up the ghost, but did he expire of natural causes or could it be ... *murder*?

The ticking-clock plot gives *Angels & Demons* more urgency and muscular structure than *The Da Vinci Code,* which comprised mostly scenes of Tom Hanks sitting around reading things and then sitting around telling skeptical people about what he'd read. *The Da Vinci Code,* which took as a given that Jesus Christ wasn't actually the son of God, had only its ready-made controversy going for it, but there's not very much in *Angels & Demons* that Catholics will be buzzing about over coffee after Mass. Indeed, the Catholics are in Trouble, and Langdon keeps swinging into action to save them. That he's not a believer makes his quest more credible — cardinals or not, these men are *people* and don't deserve to be crucified upside down in a fish tank full of Illuminati lobsters, or whatever.

Ron Howard, returning to the director's chair of this franchise, keeps things moving and gives Hanks some room to be likable. Howard still can't really do action; the aforementioned scene in the airtight Vatican archive is pretty slack, and we assume Langdon's companion in the room has died until we see him outside later catching a grateful smoke. The last half hour or so hip-wades into too much exposition, and I'm still not sure exactly what role Ewan McGregor's earnest priest plays in it all. (I mean, I *know,* but am not sure how all the pieces fit.) But it's fun to watch Tom Hanks hoof it all over Vatican City for two hours, trying to save some cardinal from being licked to death by Illuminati puppies, or whatever, and since there's going to be at least one more of these things, it's good to know this second one wasn't a complete waste.

Teddy Bear Picnic

Plumb Corner in Rochester was the sight for this year's Teddy Bear Picnic on Saturday, May 16, sponsored by the Tri-Town Early Childhood Council. The event, aimed at children six and under, mixed fun with information as area schools and organizations were represented to inform the parents of young children about the many programs available to them in the Tri-Town region. Attendees were encouraged to donate a new or gently loved stuffed animal that were then donated to local EMT services who use the toys to help calm children at emergency scenes. Each child who attended was given a book to bring home as part of the council's efforts to promote literacy. Photos by Robert Chiarito

SALOME'S STARS

ARIES (March 21 to April 19) Untangling personal problems might take more time than the impatient Lamb expected. But it's important to hang in there until all those knotty situations are straightened out.

TAURUS (April 20 to May 20) You still need to work out last-minute snags in your dealings with a rival. Hold your ground despite a perceived lack of support. Things should turn around before you know it.

GEMINI (May 21 to June 20) Best not to delay preparing for that upcoming family event. The sooner you get things started, the better chance you have of finding potential problems and making needed changes.

CANCER (June 21 to July 22) The romantic Moon Child might be reluctant to see the reality behind that "ideal" situation. But by midweek, the practical Crab emerges to help clear away the moonbeams.

LEO (July 23 to August 22) Although the Big Cat might be receptive to more "purr-suasion" to get you to agree to a workplace change, make sure you can distinguish the fine line between facts and flattery.

VIRGO (August 23 to September 22) Your positive attitude in the workplace helps to get you noticed by the right people. Now go ahead and use some of that new self-confidence to help shore up a personal relationship.

LIBRA (September 23 to October 22) Although you might still have to work out some problems with a business partner, things go more smoothly on the home front. An investment opportunity might need more study.

SCORPIO (October 23 to November 21) Don't be reluctant to act on your suspicion. Even if others see nothing wrong, the astute Scorpio could sense an underlying problem that isn't always obvious on the surface.

SAGITTARIUS (November 22 to December 21) A new opportunity presents some obstacles that need to be dealt with as soon as possible. Delaying action in hopes that the problems will go away could be counterproductive.

CAPRICORN (December 22 to January 19) A friend or family member's request might carry some hidden factors that could later create problems. Be sure you know all the facts before you make your decision.

AQUARIUS (January 20 to February 18) A setback in implementing a plan could turn out to be a blessing in disguise. Use the downtime to rework your original concepts and see where changes could be made.

PISCES (February 19 to March 20) You might not be consciously fishing for compliments, but admit it -- won't you feel great when your efforts are noticed? So accept the praise gracefully. You earned it.

BORN THIS WEEK: Your love of beauty in your personal life extends to your efforts to protect and preserve the natural world around you.

community to participate in the Camp Kyle Walk-A-Thon on Saturday, May 30. With your help we will help send children with Type 1 Diabetes to Camp Kyle T. Woodruff this summer. This unique camp is specifically designed to support the social, emotional and medical needs of children living with this chronic, incurable disease. In order to continue providing this valuable service to our community, we need your help. During these difficult economic times, we want to ensure that every child with Type 1 diabetes is given the opportunity to make new friends, learn disease management skills and most importantly, have fun!

Each year, more than 15,000 children are diagnosed with Type 1 diabetes in America. That's 40 children per day. This camp can provide the specific support of social, emotional and medical needs of children living with this chronic, incurable disease. In order to continue providing this valuable service to the children in the SouthCoast community, we need your help!

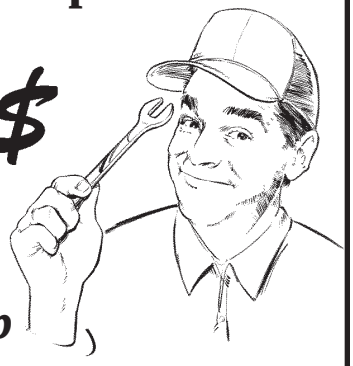

This camp is made possible by the Diabetes Association, Inc., a division of People, Incorporated, and the hundreds of parents, nurses and children who volunteer each year to make this camp successful.

There will be a bus for all who need transportation leaving the ORR High School at 7:45 am. We will be heading to the Fall River City Hall, where the walk begins at 9:30 am. Or if you would like to support our efforts by making a small donation toward our goal of $700 to send

Marion Fourth of July Horse Show

Members of the Marion Fourth of July Horse Show Committee have been busy organizing for the upcoming 2009 event to be held at Washburn Park on Saturday, July 4 at 8:00 am.

Matt's Café from Rochester will be at the refreshment stand with great food for everyone! There will be Pony Rides for the children to enjoy starting around 11:00 am. We will also be hosting a Chinese Auction and are looking for a donation item that you might like to showcase on our raffle table along with your business card being displayed with the item.

This is a great opportunity for you to bring a new client to your store or barn, all while contributing to the enjoyment of this special event. We had a grand show last year with participants and spectators having a great time watching, talking with neighbors and friends, enjoying food and refreshments from the concession stand and children getting a chance to enjoy pony rides.

Rochester Break-In Alert

The Rochester Police Department is warning residents about a recent rash of housebreaks in town. The department investigated one housebreak in March, two in April, and so far, five in the month of May.

The house break-ins have been spread around town with thefts occurring on Neck Road, North Avenue, Snipatuit Road, Clapp Road, Mary's Pond Road, and three on Alley Road. All have taken place on weekdays and most have happened mid to late morning. The thieves have been primarily targeting jewelry, laptop computers, and cash during the thefts. While there are no firm suspects at this time, police are following up on some leads.

Rochester Police and five other communities will be meeting early this week to compare cases and look at suspects. In the mean time, police are asking for the public to help by reporting suspicious persons and vehicles immediately and to keep an extra eye out.

Police offer the following prevention tips:

•Lock all doors and windows when leaving the house,

New England Wildflower Society

The face of the center of Rochester will be changing over the next few weeks as the wildflower seeds and plants recently planted in the Katherine Church Volunteer Wildflower Garden begin to grow.

With permission from the Center Cemetery Committee, and a grant from The Rochester Cultural Council a local agency, which is supported by the Massachusetts Cultural Council, a state agency, the Rochester Green Ways Committee has begun to plant over four pounds of annual, perennial, and native New England wildflower seeds in two beds tilled with machinery by Weston Lantz of Lucky Field Organics. Green Ways has also planted over a dozen and a half wildflower plants that are native to Rochester, but in many cases difficult to now find in the wild.

By mid summer, passersby will be encouraged to stop and stroll the wide path, sit on the bench to be located there and enjoy the sight of colorful wildflowers,

The Green Ways Committee is a volunteer group committed to planting trees and flowers to beautify the roads of Rochester. Katherine Church and several of her friends used to plant the triangle in the center of town, so Green Ways thought a wildflower garden would honor her and other volunteers, who have given so much time to make Rochester such a special place.

The Green Ways Committee hopes to expand the plantings with bulbs in the fall and more plants next spring. Donations to defray further costs may be made to the Green Ways Committee, Rochester Town Hall, 1 Constitution Way, Rochester, MA 02770. For more information about local wildflowers, contact Laurene Gerrior at (508) 763-4223, or check out The New England Wildflower Society at newfs.org.

sunglasses that you have stashed away in your drawer? If you're not going to wear them, you could give the glasses to your local Lions club for them to recycle for the sight program. Lions clubs are collecting unwanted eye wear for distribution to those in need in developing countries where the people often cannot afford the eye care they need and clear vision is merely a dream; your old eyeglasses can help turn someone's dream into a reality.

To donate your glasses simply drop them off at any Lions collection box or bring them to Harbor Days which kicks off with the triathlon on Sunday, July 12. Triathlon applications are available on our website at mattapoisettlionsclub.org

ATTENTION DRIVERS

If you are involved in a collision you have the right to have your investment, your vehicle, repaired at a shop of your choice. Your insurance company may suggest a list of repair shops. Do not be persuaded by this list, it is not a guarantee of quality of services, nor does it limit your options. You want a shop who will work for you and with you to put your vehicle back to pre-accident condition. COLLISION SERVICES OF MARION, INC. is a licensed, bonded, registered repair shop with the state of Massachusetts. We work with all insurance companies to expedite your repairs. The important thing to remember is we repair the vehicle for you, our customers, not the insurance companies. So remember, if the need arises, contact COLLISION SERVICES OF MARION, INC. to get back on the road.

I Found the Aardvark!

Each week, hidden somewhere in the pages of *The Wanderer* is a tiny drawing of an aardvark. The little guy you are looking for looks exactly like the one pictured above (but don't put down this page as your answer, there's another one hidden somewhere in this issue).

Once you find the aardvark you can submit your answer online and if you are right you will get Aardvark Points! You can then use these points to get cool Aardvark Prizes!

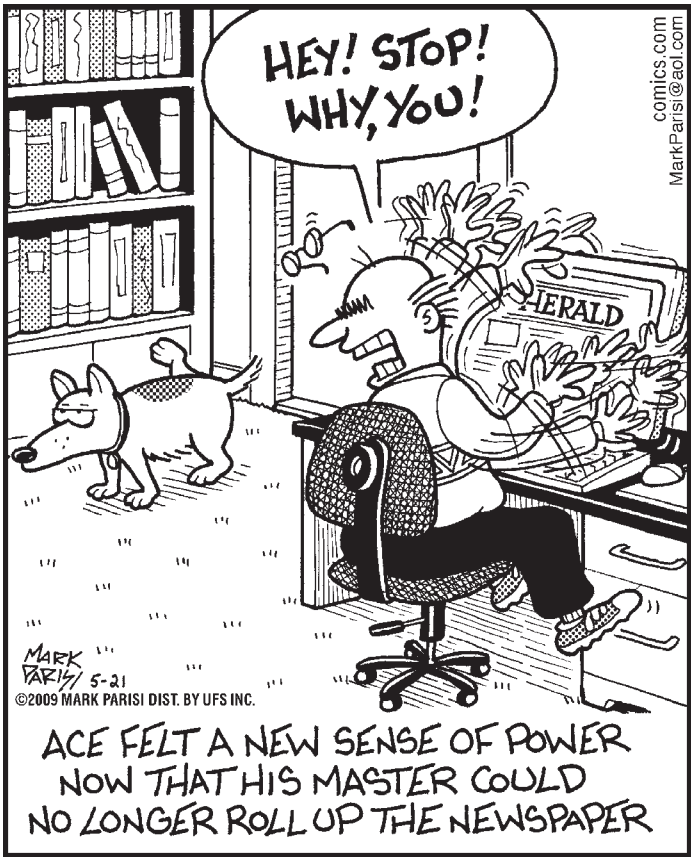

Each time you find the Aardvark you will also be entered in our monthly drawing for other cool Aardvark Prizes.

If you would like to enter the monthly drawing by mail, send your name, address and phone number along with the issue date and page number you found him in to: Wanderer - I Found the Aardvark, P.O. Box 102, Mattapoisett, MA 02739. Entries by mail will not be eligible for Aardvark Points.

To enter visit: www.wanderer.com and Click on *"I Found the Aardvark"*
